### Application:

- Clean the floor before use - it must be free of dirt and debris and be as dry as possible
- Make sure that the mat is around 10 cm larger than the area to be protected
- Place the adhesive surface on the floor and fix this with pressure
- After use the mat can be cleaned with soap and water

### Properties:

- Resistant to chemicals
- Equipped with two handles on both sides to make it noticeably easier to use
- Warranty - if used properly: 2 years
- Reusable
- Very good resistance to oils, acids, etc.
- Drain cover mat to protect the public sewer system made of PU
- The mat is frost-resistant
