

## Our team has been strengthened!

We warmly welcome our new colleague Thomas Pangels for sales/internal service at SORB<sup>®</sup>! He has been actively supporting us since 01.05.2023 and we are thrilled to have him on board.

We wish Thomas a successful cooperation in our team and look forward to our future together.  
You can reach him under:

Tel.: +49 2166 1268-163

Quick'n Easy ESD now also available as an antistatic version!

### What is the Quick'n Easy ESD?

The Quick'n Easy is easy to handle and therefore super quick to set up and dismantle. It is ideal for the short-term storage of hazardous substances, conventional technical and chemical petroleum products. In addition to the standard sizes, we can offer you special sizes tailored to your area of application.

### What are the advantages of the Quick'n Easy ESD?

- antistatic: electrostatic charges are prevented by ESD products
- perfect collection trays for use in explosion areas, wherever antistatic material is useful
- height-adjustable, space-saving, rollable, low weight
